

## SOLD OUT! SOLD OUT! SOLD OUT SIGNS @ SGI DUBAI 2022

## HELIOZID OCÉ SELLS MIMAKI MACHINE TO EXCELLINE ADVERTISING AT SGI DUBAI 2022

Excelline Advertising, is an established and well known company with an excellent track record for the best customer satisfaction. The company has bought a Mimaki printer from the Heliozid stand during SGI Dubai 2022. Mimaki printers provide unrivalled quality and versatility thereby opening up many opportunities for organisations such as Excelline Advertising. SGI Dubai show has been instrumental in enabling exhibitors at the show sell their machines.

# MATRIX AFFIRMS ITS COMMITMENT TO THE REGION

Established in the year 2008, Matrix has been gradually building on its range of products. Innovation in the products, strong manufacturing, base, and the value proposition have been key to our success. Project supply and wholesale supply have equally contributed to our growth. Market has challenged us many times with recession & covid etc., but the company never compromised on its core values i.e., Quality, Designs, and best value proposition for our client. In the 15 years of our experience, we have worked hand in hand with our clients and supported them with the best of services. Whether it is short deadline or odd hours of working, we stand firm with our clients. Success is a cumulative process where every party contributes their best. Matrix will definitely do its part. With a sizeable presence in UAE market and a niche position, we now intend to expand into other countries globally. Looking to partners with like-minded business.

## DESERT SIGN DIGITALLY SHINES

Thanks to SGI for bringing the sign, graphic and imaging community together on one platform. These were three overwhelming days of excitement where visitors showed high interest to new innovations in digital signages with different possibilities. This has the power to penetrate in various production and service industries. Trends and CAGR indicate that this is the future of every business and it is expected to be US\$27 billion. Thanks to SGI to provide a platform where not only buyers and sellers meet but designers, software engineers and other art and creative people looks more excited. Digital signage in this era after almost three years of pandemic opened opportunities for different professionals and industries.

They are continuously expanding and exploring new opportunities with up-and-coming brands & new market segments.

# SABAZU TAKES PRINTING TO ANOTHER LEVEL

3.2 Single raw pinch roller UV Printer

Optimized design of the unwinding structure to meet the printing needs of various materials of external light, internal light and soft film; compared with the four rubber roller machine, the media loading and unloading is convenient and flexible ,reducing the operator workload of changing the material frequently , reducing the tailings. Less material scrap , and reduce production costs ;The whole machine cost is low, which is convenient for customers to quickly receive various small orders for production. The printer adopts a water-cooling platform, which is suitable for many printing materials , it can provide long term stable printing for heat-sensitive materials such as soft films and car stickers. The optimized design supports double rolls of media printing at the same time, one machine is equivalent to two machines. Compared with the traditional double roller UV printer at least one meter media is saved each production. Machine is adopted with Konica Minolta 1024A heads. External computer support, saving installation space; densely pinch roller arrangement; Cooperate with professional feeding system to ensure the accuracy of stepping. Machine speed in 3pass is 72m<sup>2</sup>/h, in 4 pass 50m<sup>2</sup>/h and 17 m<sup>2</sup>/h in 6 pass.

# EARTHBAGS A BIG HIT AT FOTOKAD

The company received an immensely good response for their range of sustainable Jute, Cotton, Juco Bags from Earthbags and Drinkware. This was appreciated by high quality of visitors from all over the MENA region. Definitely a show worth participating the next season as per the Fotokad spokesperson.

# PRO TECHNOLOGY ATTRACTS GLOBAL TRADE VISITORS

PRO TECHnology along with its partner Caldera presented during SGI 2022 their unique printing solutions for color management which is the key for graphic designing/ print quality/Stability. Many of our visitors in the stand were keen in getting the software upgrade for advanced imaging quality, ICC profiling and workflow management, The latest upgrade of Caldera version 15.1 is the perfect solution to address these requirements. On the stand of Pro TECHnology also, was a presentation of the advanced Router engraving and cutting machine from Hanter Technologies of Korea which is a highly reliable machine for engraving and cutting devices of various substrates such as wood/Acrylic/Aluminum/foam board etc. Hanter Technologies manufactures highly durable and precise machines with Automatic Tool change with cutting knife/high vision camera which detects crop marks automatically and cuts to perfection.
