HELIOZID OCE' SHOWCASE CUTTING EDGE SOLUTIONS AT SGI DUBAI

In the fast-paced world of Digital Large Format printing, staying ahead of the curve is not just an aspiration, it's a necessity. Innovation is the lifeblood of progress, and Heliozid Océ Emirates a trailblazing leader in the field, has once again proven its commitment to pushing boundaries with the launch of their groundbreaking new product, Barracuda 5+ from Teckwin fastest 5m LELD-UV printer. High Speed with Symmetrical heads in 3 rows, Water cooling system for the print platform, magnetic head carriage motor, vertical cutting knives are some of the features of the Barracuda 5+.

At SGI 2023, Heliozid Océ also showcases the latest products from Mimaki for the signage and display graphics industry of the middle east. Mimaki's new and enhanced products such as the UJF 6042 MK2e A2 size flatbed printer for personalizing gift items and the 3.2M eco solvent SWJ 3042 printer are some of the products on display at the SGI Heliozid Océ stand.

For high volume 1.6 M applications, Heliozid are displaying the flexible Canon Colorado 1650 capable of printing using UV Gel ink at speeds of up to 160 square meters per hour. This printer offers excellent colour gamut, certified low-odour prints, important for indoor usage, and no drying time so no waiting before

finishing. Apart from its productivity, the Colorado offers an ingenious curing strategy that results in two distinct finishes: shiny gloss or velvety matt. Unique in our industry.

In the words of Philippe Husni, MD of Heliozid Océ Emirates, "The new products launched this year by Heliozid Océ will redefine the signage industry, delivering hi quality prints at hi speed reducing production time and cost. Add to this Heliozid Océ's dedicated team of consultants and service engineers, our customers will have the "best solution and support available to them"
